	Page 10, please delete the paragraph beginning at line 12 and ending at line 12, and
1	replace with the following paragraph.
	Detection of intracellular ATP of the present invention
B2_	Page 13, please delete the paragraph beginning at line 4 and ending at line 4, and
	replace with the following paragraph.
	Method of preparing wild type luciferase derived from various firefly species
B3	Page 13, please delete the paragraph beginning at line 18 and ending at line 18, and
	replace with the following paragraph.
R4	Method of determining luciferase activity
V-3	Page 14, please delete the paragraph beginning at line 5 and ending at line 5, and
•	replace with the following paragraph.
<u>e</u> 5	Method of determining surfactant-resistance
45	Page 15, please delete the paragraph beginning at line 8 and ending at line 8, and
	replace with the following paragraph.
BL	Production of gene encoding mutant luciferase HLK
	Page 16, please delete the paragraph beginning at line 15 and ending at line 15, and
	replace with the following paragraph.
07	Preparation of gene encoding mutant luciferase HIK
0 1	Page 18, please delete the paragraph beginning at line 2 and ending at line 2, and
	replace with the following paragraph.
BX	Changes in emission with time
VO 0	Page 19, please delete the paragraph beginning at line 2 and ending at line 2, and
	replace with the following paragraph.
